Der Grüne Punkt Corporate Structure & Business Areas

A one-stop shop for our customers to promote a circular economy

Licensing

- › EPR system with **the most extensive market experience** in Europe (> 35 years)
- › Competitive prices
- › Very high brand awareness and reputation
- › Comprehensive customer service

Chemical recycling

- › Access to quotas from **chemical recycling** (food-grade) through an attractive pooling agreement

Consulting

- › From consulting on the legally compliant fulfillment of your **obligations** (Germany/EU) to optimizing your packaging in terms of **recyclability** and **the use of recycled materials**

Mechanical Recycling

- › Access to high-quality **post-consumer recycled materials** (PP and LDPE) from our own **Systec Plastics plants**, as well as HDPE from **Forplast** (I) and LDPE from **RG-Group** (F), plus **expert support** in application technology and access to sorted packaging fractions from **TriPlast** (A) and **Synextra** (I)

The GreenDot Group operates several facilities for the sorting and mechanical/chemical recycling of LVP

Mechanical recycling plants

**Systec Plastics,
Hörstel
rPP production**

Specializes in the production of high-quality PP recyclates

Capacity: 30 kta

**Systec Plastics
Eisfeld
rLDPE production**

Competence center and production for flexible (LDPE)

Capacity: 50 kta

**Forplast Group²,
Piacenza
rHPD production**

Established manufacturer of high-quality HDPE & PP recyclates

Capacity: 50 kta

**RG Group, Tence &
Saint-Pal-de-Mons,
rLDPE production**

Specialized in high-quality LDPE recyclates (post-commercial & PIR)

Capacity: 30 kta

Sorting & Chemical Recycling

**TriPlast¹, Ennsheim
LVP sorting plant**

Sorting of LVP (lightweight packaging) and metal packaging

Capacity: 100 kta

**Synextra², Milan
LVP sorting plant**

Sorting and preparation of raw materials, including for chemical recycling

Capacity: 150 kta
